Hon. Nelson Rockefeller

Dear Sir,

As Chairman of the Commission investigating the CIA, do you intend to limit the investigation to the domestic spying or extend it to the possible link of the Agency to the murders of both Kennedy's and M.L. King? The Warren commission has had a pistol at his back from a very powerful organisation (Dr Strangelove?). If you put together couple exhibits of the commission you get an absolutely idiotic and impossible magic bullet tragectory as per encl. picture. When in 1968 I sent it to Garrison (D.A. N. Orl.) as open letter, couple days later came a tel. call advising me to get out of my home, which would be blown up. Still standing - too many kids around. The members of your commission are salaried officials. The $100,000. allocated and payed by U.S. tax paying suckers is coming as bonus to the members? Are they working in the commission at their spare time? Is the work conducted as a circus with testimonies etc.? Is it not simplier to look thrue the files - or is it tabu? I hope you have enough guts and will not follow the pathe of the warren Commission.

Very tr y

U.S. advisers and instructors are moving to Oman and S. Arabia. Like it was in Viet-Nam. It will be only question of time when real banging starts. First WW started when germany build the famous Bagdad R.R. "Malbrouque s'en vat en guerre - Mironton - Mironton - Mironton!"
